SPARK Ginninderry and Canberra Institute of Technology proudly support training and employment initiatives for local people.

SPARK in partnership with the Canberra Institute of Technology (RTO code:0101) are delivering an innovative accredited training program focused on giving participants a "taste" of different skill sets within the Information Technology sector.

Specifically targeting people living within the Australian Capital Territory, this program on successful completion will provide participants with the following units of competency in the Information Technology sector:

» **ICTWEB414** Design simple web page layouts
  – Scope web page requirements, create and implement web page designs
» **ICTICT303** Connect internal hardware components
  – Acquire, install, configure and evaluate system hardware components according to client and user requirements
» **ICTWEB201** Use social media tools for collaboration and engagement
  – Review, compare and use different types of social networking tools and applications
» **VU21990** Recognise the Need for Cyber Security
  – Recognise threats, risks and vulnerabilities to cyber security in an organisation

Commencing Monday 26 July 2021, this 9-week program will run 3 days per week (Mon, Thurs and Fri, 20 hours per week) and be a combination of theory and practical hands on learning and potential industry work experience.

This enrolment session will provide potential participants with advice on the eligibility criteria, the program content and the commitment that is required to be selected as a participant on this program.
